SUMMARY

Motivated Java Full Stack Developer with hands-on experience building web applications using Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, and MVC architecture. Proficient in developing scalable solutions involving authentication systems, database integration, session management, and CRUD functionalities. Strong foundation in Object-Oriented Programming, SQL, Data Structures, and Algorithms with a commitment to continuous learning and delivering high-quality software solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Sri Venkateswara College of Engineering, Tirupati

2023 – 2027

CGPA: 8.95

- Strong foundation in programming, software development, and database management
- Focused on Java Full Stack Development, Web Technologies, and MVC Architecture
- Actively learning Data Structures and Algorithms (DSA)

Intermediate (MPC)

TMR Junior College

2021 – 2023

Percentage: 95%

- Completed Intermediate education in Mathematics, Physics, and Chemistry (MPC)

INTERNSHIPS & TRAINING

Java Full Stack Development Intern

PHANI SOFT TECH SOLUTIONS (PST)

Feb 2025 – Aug 2025

- Contributed to the development of 3 full-stack web applications using Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, and JavaScript.
- Implemented 15+ database operations, including Create, Read, Update, and Delete functionalities, across multiple application modules following MVC architecture.
- Utilized Core Java concepts such as Object-Oriented Programming, Collections Framework, Exception Handling, and JDBC to create reusable and maintainable components.
- Identified and resolved issues in 20+ application features through testing and debugging, improving application reliability and user experience.

AWS Cloud Computing Training Participant

Viksha Tech Solutions Private Limited

Aug 2025 – Aug 2025

- Completed training covering AWS Cloud fundamentals, including compute, storage, networking, and security services.
- Acquired practical knowledge of Amazon EC2, Amazon S3, and cloud deployment concepts through guided exercises.
- Strengthened understanding of scalable infrastructure design and cloud-based application hosting principles.

SKILLS

- Languages:** Java, SQL
- Frontend:** HTML5, CSS3, Bootstrap
- Backend:** JSP, Servlets, JDBC
- Database:** MySQL
- Core Java:** OOP, Collections, Exception Handling
- Concepts:** MVC Architecture, CRUD Operations, Session Management, Authentication & Authorization, Database Connectivity, Object-Oriented Programming, RESTful APIs
- Tools:** Git, GitHub, Maven, Eclipse, VS Code
- Cloud:** AWS Fundamentals
- Problem Solving:** Data Structures & Algorithms

PROJECTS

Flipkart Clone

Engineered a full-stack e-commerce platform using Java, JSP, Servlets, JDBC, and MySQL featuring authentication, product catalog management, shopping cart, wishlist, order processing, and seller dashboards. Implemented session management and database-driven workflows to support end-to-end business operations.

Student Marks Management System

Designed a web-based academic management system using Java, JSP, Servlets, JDBC, and MySQL to manage 100+ student records through CRUD operations. Automated PDF marksheet generation and applied MVC architecture to improve maintainability.

OTT Platform

Built a responsive streaming platform interface using HTML, CSS, and JavaScript with emphasis on cross-browser compatibility and user-centric design. Currently enhancing the application using React.js to improve scalability and component reusability.

CERTIFICATIONS

- Java Full Stack Development – Phani Soft Tech Solutions (PST)
- AWS Training – Viksha Tech Solutions Private Limited
- Java 8 Workshop – Phani Soft Tech (PST)
- Artificial Intelligence Internship – Achieve Academy
