SAYED YASIN

Java Full Stack Developer

6303834758 | syedyasin075@gmail.com | Naidupet, Andhra Pradesh, India

LinkedIn | GitHub | LeetCode | Portfolio

SUMMARY

Java Full Stack Developer with hands-on experience building web applications and backend services using Java, Spring Boot, JSP, Servlets, JDBC, MySQL, JavaScript, and React.js. Experienced in developing authentication, CRUD workflows, database operations, REST APIs, and MVC-based applications through internships and projects. Skilled in Postman, Git, GitHub, Maven, and debugging, with experience developing a digital wallet application using Spring Boot and React.js.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Sri Venkateswara College of Engineering, Tirupati **2023 – 2027**

CGPA: 8.81

Intermediate (MPC)

TMR Junior College **2021 – 2023**

Percentage: 95%

INTERNSHIP EXPERIENCE

MERN Stack Development Intern

SmartBridge Internship – Andhra Pradesh State Council of Higher Education (APSCHE) **2 Months | Virtual**

- Completed a **2-month** virtual internship focused on MERN Stack development and full-stack web application workflows.
- Developed and deployed **1 Book Store web application** using **React.js, Node.js, Express.js, and MongoDB Atlas**, covering frontend, backend, and database integration.
- Integrated REST APIs supporting **3 core workflows**: book browsing, product management, and user interactions.
- Tested, debugged, and deployed the application for live access. Live Demo

Java Full Stack Development Intern

Phani Soft Tech Solutions (PST) **Feb 2025 – Aug 2025**

- Contributed to **3 full-stack web applications** covering authentication, database operations, and business workflows.
- Executed **15+ database operations** including record creation, retrieval, modification, and deletion across application modules.
- Applied Java, OOP, Collections, Exception Handling, and JDBC to develop **20+ backend functionalities** supporting authentication and database integration.
- Identified and resolved issues across **20+ application features** through testing and debugging.

AWS Cloud Computing Training Participant

Viksha Tech Solutions Private Limited **Aug 2025**

- Completed hands-on AWS training covering **4 core areas**: compute, storage, networking, and security.
- Worked with **2 AWS services, Amazon EC2 and Amazon S3**, through guided exercises involving application hosting and cloud storage.

SKILLS

- **Languages:** Java, SQL
- **Frontend:** HTML5, Tailwind CSS, JavaScript, React.js
- **Backend:** Spring Boot, JSP, JDBC
- **Database:** MySQL
- **Tools:** Git, GitHub, Postman
- **Cloud:** AWS Fundamentals
- **Problem Solving:** Data Structures & Algorithms

PROJECTS

- **PaySphere Digital Wallet System |** Live Demo
  Architected a secure digital wallet application using Spring Boot, Spring Security, JWT, JPA/Hibernate, MySQL, and React.js. Implemented registration, authentication, role-based access, wallet management, money transfers, and transaction workflows. Designed backend logic to validate requests, update balances, and maintain transaction records while testing APIs and authentication flows using Postman.
- **CartZone E-Commerce |** Live Demo
  Engineered an end-to-end e-commerce platform supporting customer and seller workflows. Implemented authentication, product browsing, shopping cart, wishlist, and order processing for customers, with product and order management through seller dashboards. Structured database-driven workflows for users, products, carts, and orders.
- **Student Marks Management System |** Live Demo
  Created an academic management system for maintaining student records through an admin workflow. Managed registration, marks entry, updates, and deletion while maintaining database consistency. Automated student mark sheet generation in PDF format and structured the application using MVC architecture.
